Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Saturday 11 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Largely dry with sunny spells and the very occasional shower.

Today:
Any lingering low cloud soon clears through the morning, with a fine, largely dry day following. Sunny spells develop more widely into the afternoon, with the odd very isolated shower. Maximum temperature 21 deg C (70 deg F).

Tonight:
Remaining dry with plenty of clear spells this evening. Cloud cover then increasing through the early hours with rain arriving for the west of Cornwall. Minimum temperature 10 deg C (50 deg F).

Sunday:
Largely dry but cloudy with some brighter spells around Gloucestershire. However, persistent and sometimes heavy rain will edge along northern coasts through the afternoon before likely becoming more widespread overnight. Maximum temperature 20 deg C (68 deg F).

Outlook for Monday to Wednesday:
Widespread rain on Monday will likely clear through the afternoon. Becoming drier on Tuesday and Wednesday with plenty of sunny spells and isolated showers, especially during the afternoons.
